

Ply Woods

Our Special

Plywoods

Birch Plywood

Birch plywood is a type of fine-grained wood that is frequently used to make furniture including desks, drawers, and storage. Durability is always a key factor to consider when renovating any area, and in this case, birch plywood offers a highly durable solution for homes and offices. Birch plywood has layers of veneer that are cross-banded for durability and resistance to rot.

Sizes : • 8' x 4'(2440 x1220mm) • 5'x5' (1525 x 1525 mm)

Thickness : 3mm, 4mm, 5mm, 6mm, 8mm, 9mm, 12mm, 15mm, 16mm, 18mm, 24mm, 40mm

Flexible Plywood

Flexible plywood is a special type of plywood that can be easily bent without breaking into pieces. When designing any form of furniture with curved surfaces, this may be quite helpful. Given that it is constructed of hardwood, the wood is of high quality, useful for designing interior spaces and constructing curved surfaces for furniture.

Sizes : • 8' x 4'(2440 x1220mm)

Thickness : 6mm, 9mm, 12mm
